

## AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

### Listing of Claims:

1. (Currently Amended) A method for alleviating a condition associated with prostate cancer selected from the group consisting of prostatic enlargement, urinary incontinence, urinary retention, and urge-type dysfunction, the method comprising the step of injecting a therapeutically effective amount of botulinum toxin type A into the prostate gland of a patient with prostate cancer, thereby alleviating said condition associated with prostate cancer.

2. (Cancelled)

3. (Cancelled)

4. (Previously Presented) The method of claim 1, wherein the condition associated with prostate cancer is urinary incontinence.

5. (Previously Presented) The method according to claim 1, where the patient is a human.

6-19. (Cancelled)

20. (Previously Presented) The method of claim 1, wherein the condition is prostatic enlargement.

21. (Cancelled)

22. (Previously Presented) The method of claim 1, wherein the therapeutically effective amount of botulinum toxin type A is up to 2500 units.

23. (Previously Presented) The method of Claim 1, wherein the therapeutically effective amount of botulinum toxin type A is about 1.4 IU/kg to 17.1 IU/kg of botulinum toxin type A.

24. (Previously Presented) The method of Claim 1, wherein the therapeutically effective amount of botulinum toxin type A is 200 IU of botulinum toxin type A.
